

## GRANT COUNTY WEED CLASSIFICATION

Noxious weed for the purpose of this policy shall be rated "A", "B" or "C".

**"A" Pest-** A weed of known economic importance known to occur in the county in small enough infestations to make eradication practicable or not known to occur, but it's status in the surrounding counties makes future occurrence seem imminent. *\*species not yet known to occur in the county*

**ACTION:** Infestations are subject to eradication where found with possible County assistance when funds are available.

**"B" Pest-** A weed of known economic importance and of limited distribution in the county and is subject to intensive control or eradication where feasible at the county level.

**ACTION:** Infestations are handled at County discretion with possible County assistance when funds are available.

**"C" Pest-** A weed of known economic importance and of general distribution that is subject to control, intensive control, or eradication as local conditions warrant.

**ACTION:** Infestations handled at owners discretion.

### "A" Rated Weeds

*African rue	Peganum harmala
Black Henbane	Hyoscyamus niger
*Buffalobur	Solanum rostratum
